I am a developer with a unique combination of hands-on mobile/web development skills and strategic leadership. I have proven ability to manage and motivate a team of 50+ people, paired with 3+ years of experience building and deploying robust applications.

Top Skills

- **Team Management, Team Building, Problem Solving** – Managed the team of 50+ people being the president of Departmental Society with over 150+ successful events including seminars, webinars, free courses, sports competitions and many more under my command. Empowered more than 100 students with Technical skills, Freelance opportunities and Jobs to gain financially independence.
- **Mobile App Development (Flutter)** – With over 3+ years of experience and 50+ recurring clients served using this skill. Used this skill to land my First Job at FastCode Solutions Inc. on a 1-year contract.
- **Web App Development (MERN Stack)** – Started this role with an Internship with a company (Direct2Success) for 3 months and landed the job in same company right after the internship and now I have more than 1 year experience in MERN Stack.
- **Generative AI** – AI is the future and mastering it can help you lead the tasks more effectively. With the knowledge of Prompt Engineering and experience with AI Agents and Workflows, I have effectively used them to get the best results in Development, Team Building and throughout the other aspects in my daily life.
